TECHNICAL NOTICE 02-002

REQUESTED BY: **LA LAITERIE Villefranche sur Saône**

- *Date of request:* April 29th, 2002

DESCRIPTION OF PACKAGING:

- *Brand name:* Marguerite

- *Shape:* Cylindrical wide-necked bottle,  marking

- *Colour:* Colourless

- *Appearance:* Transparent

- *Volume:* 1 and 1,5 litres

MARKET:

Mass retail

MATERIALS:

- Monolayer PET body,
- Paper label,
- One-piece HDPE cap,
- Water-soluble glue.

TECHNICAL NOTICE

The composition of the body and the overall structure of the body are totally compatible with the main PET packaging recycling streams currently available in Europe.

The final choice of using water-soluble glue provides for satisfactory ungluing of the label and elimination of the glue in the reclaiming stage.

The colourless transparent packaging is easy to identify visually.

In the French system, it will be channelled into the clear PET stream for recycling.
