TECHNICAL NOTICE 03-001

REQUESTED BY: Coca-Cola Services France

- *Date of request:* November 2002

DESCRIPTION OF PACKAGING:

- *Brand name:* Sprite
- *Shape:* round
- *Colour:* dark blue
- *Appearance:* transparent
- *Volume:* 1.5L

MARKET: Supermarkets and hypermarkets

MATERIALS:

- Body: monolayer PET
- Label: paper
- Ink: offset type
- Closure: polypropylene with PE/EVA seal
- Glue: synthetic polymers

TECHNICAL NOTICE

The composition of the body and the bottle's overall structure are completely compatible with the main PET packaging recycling streams that are currently available in Europe.

Although the glue quantity is low as it is restricted to a single gluing line, we recommend the switch to a water-soluble glue, insofar as possible.

The transparent blue packaging is easy to identify visually. In the French system it will be channelled into the dark PET stream for recycling.
