TECHNICAL NOTICE 04-N06

APPLICANT: **Nestlé Waters France**

- *Date of request:* December 2004

DESCRIPTION OF PACKAGING:

- *Brand name:* Aquarel
- *Shape:* Round –  marking
- *Colour:* Light blue
- *Volume:* 1.5 l

MARKET:

- Consumption: home and away-from-home

MATERIALS:

- Body: PET monolayer
- Cap: HDPE single part
- Label: Paper
- Ink: For offset printing. Oil varnish over-lacquer
- Glue: Hotmelt. Gluing on 1 or several lines.

TECHNICAL OPINION

The composition of the body and the overall structure of the bottle are completely compatible with the main recycling stream for PET packaging that are currently available in Europe.

COTREP recommends keeping the amount of glue used to a minimum and studying its washability.

The light blue packaging is easy to identify visually. In the French system, it will continue to be channelled into the light PET stream for recycling.
