TECHNICAL NOTICE 04-N10

APPLICANT: **Nestlé Waters France**

- *Date of request:* December 2004

DESCRIPTION OF PACKAGING:

- *Brand name:* St Lambert
- *Shape:* Round –  marking
- *Colour:* Light blue
- *Volume:* 50 cl – 1.5 l

MARKET:

- Consumption: home / away-from-home

MATERIALS:

- Body: PET monolayer
- Cap: HDPE single part
- Label: Paper
- Ink: For offset printing. UV and acrylic varnish over-lacquer
- Glue: Hotmelt. Gluing on 1 line

TECHNICAL OPINION

The composition of the body and the overall structure of the bottle are completely compatible with the main recycling stream for PET packaging that are currently available in Europe.

Although the amount of glue is limited as there is only one gluing line, COTREP recommends studying its washability.

The light blue packaging is easy to identify visually. In the French system, it will continue to be channelled into the light PET stream for recycling.
