MARKET

- *Use:* home

- *Outlets:* Supermarkets and hypermarkets

MATERIALS

- *Body:* PET

- *Cap:* hdPE

- *Label:* OPP

- *Ink:* for inkjet printing

- *Glue:* Hotmelt. Gluing along one line.

TECHNICAL OPINION

The composition of the body and the overall structure of the bottle are totally compatible with the main recycling streams for PET packaging now available in Europe.

Although the quantity of glue is low as it is restricted to a single gluing line, COTREP recommends studying its washability (*cf. FT10: General remarks on glue*).

The colourless packaging is easily identified visually. In the French system, it is channelled into the light PET stream for recycling
