TECHNICAL NOTICE 09-06

APPLICANT: Artenius PET Packaging Europe

- *Application date:* November 2009

DESCRIPTION OF PACKAGING:

- *Brand name:* 3 in 1 Wine
- *Shape:* Round – Marking
- *Colour:* Dark green
- *Volume:* 750 ml

MARKET:

- In-home consumption

MATERIALS:

- Body: PET and Nylon 6 multilayer

TECHNICAL NOTICE:

Given the low Nylon content, and the fact that the bottle is included in the dark-coloured PET stream, leading mainly to fibre applications, the various constituents and components of the bottle within the packaging collected in France does not disrupt the main recycling channels for PET currently available in Europe (See FT37, "Impacts of PET/Nylon multilayer bottles").

By virtue of its dark green colouring, the packaging is easily identifiable visually, and in the French system will continue to be directed to the coloured PET stream and its specific outlets for recycling.

Signed in Paris on 5th January 2010
